About Me

Hello! I'm Thulasi Ranganath, a B.Tech student specializing in CSM at NRI University. I am interested in programming, web development, and technology. I enjoy learning new skills, solving problems, and developing creative projects. My goal is to improve my technical knowledge and become a skilled developer.

My Education

Qualification	Institution	Status
B.Tech - CSM	NRI University	Currently Studying
Intermediate	Narayana Junior College	Completed
School Education	Narayana	Completed

Technical Skills

Python | HTML | CSS | Problem Solving | Programming Basics

My Projects

Personal Portfolio

A responsive personal website built using HTML and CSS to showcase my profile and skills.

College Webpage

A webpage concept for presenting college information, courses, and facilities.

Python Programs

A collection of beginner Python exercises that demonstrate programming fundamentals.

My Hobbies

🏸 Badminton

Practising badminton and improving my skills.

💻 Coding

Exploring programming and building webpages.

📚 Learning

Learning new concepts and developing knowledge.

My Achievements

Learning and Growth

- Learning Python programming.
- Developing HTML and CSS projects.
- Working towards academic excellence.

My Resume

This portfolio introduces my education, skills, interests, and projects. A resume file can be added here when it is ready.

so could you please tell me the truth about is your treats are really made by you

Welcome to NRI University

Learn today, lead tomorrow. Explore knowledge, develop your skills, and build your future through quality education.

Explore Admissions

About Our University

A college website provides students with information about academics, departments, campus facilities, admissions, and university activities.

Academic Excellence

Encourage learning, critical thinking, creativity, and problem-solving skills.

Innovation

Explore technology and develop practical knowledge through academic projects.

Student Development

Support teamwork, communication, leadership, and personal growth.

Our Departments

Explore different areas of engineering and technology.

CSM

Computer Science and Engineering (Artificial Intelligence and Machine Learning).

CSE

Computer Science and Engineering, focusing on computing fundamentals.

ECE

Electronics and Communication Engineering.

EEE

Electrical and Electronics Engineering.

Popular Courses

B.Tech CSM

Programming, computing, artificial intelligence, and machine learning fundamentals.

B.Tech CSE

Software development, algorithms, databases, and computing.

B.Tech ECE

Electronics, communication systems, and embedded technology.

Faculty Information

Faculty members guide students in their academic learning, practical work, and professional development.

Computer Science Faculty

Supports programming, computational thinking, and software development learning.

Electronics Faculty

Guides students through electronics concepts and laboratory activities.

Mathematics Faculty

Helps students strengthen mathematical reasoning and analytical skills.

Admissions

Students should check the university's official admission notifications for current eligibility, dates, fees, and application procedures.

General Admission Process

1. Check the eligibility requirements.
2. Choose your preferred course.
3. Prepare the required documents.
4. Submit the application through the official admission process.
5. Follow the official instructions regarding selection and enrollment.

Admission Enquiry

Campus Facilities

Library

A learning space for reading, reference materials, and academic study.

Computer Labs

Practical computing activities and programming practice.

Sports

Recreational and physical activities for student development.

Transport

Students can contact the institution for transport routes and availability.

Campus Events

TECHNICAL

Technical Symposium

A proposed event for showcasing technical knowledge, presentations, and projects.

CULTURAL

Cultural Festival

A proposed celebration of creativity, arts, and student participation.

LEARNING

Student Workshop

A proposed opportunity to explore new skills and practical learning.

Contact Us

Contact the university through its verified official channels for accurate information.

Institution: NRI University

Enquiries: Admissions Office

Address: Update with the verified campus address.

Email: Update with the official university email.
